## UBS Training Center Wolfsberg

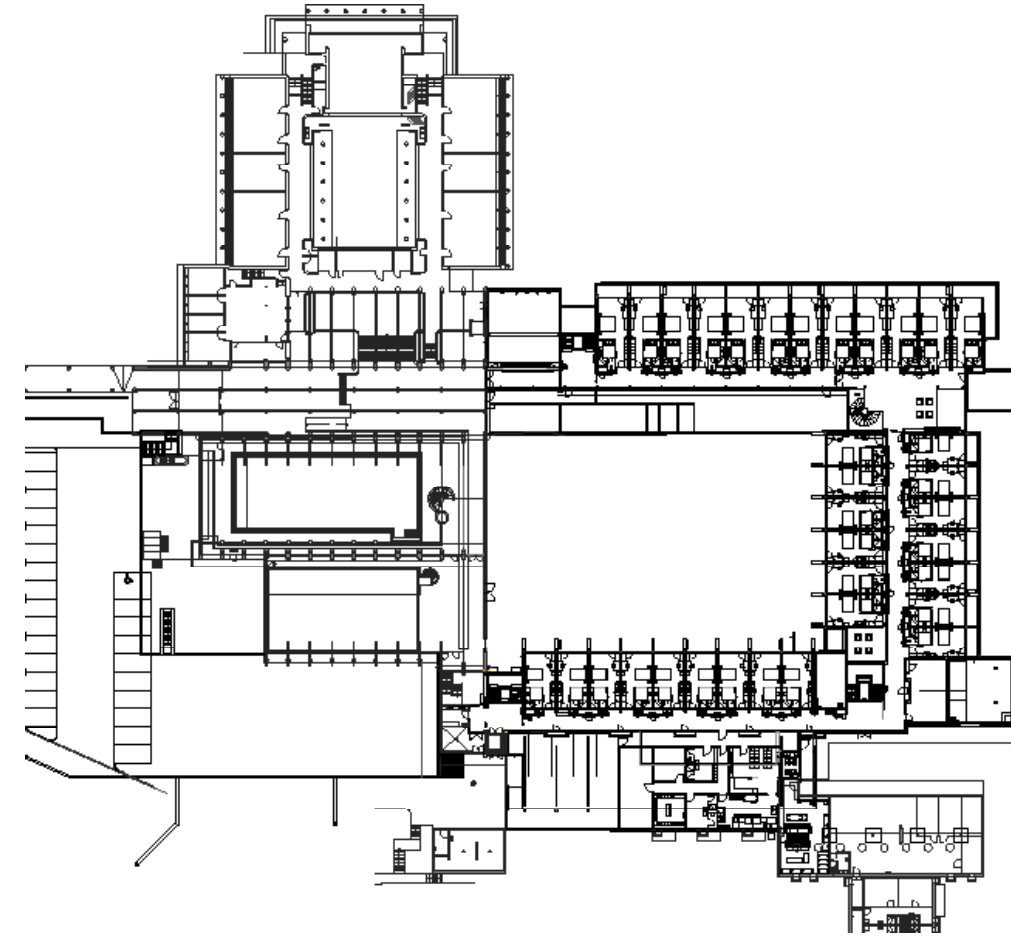

Ermatingen

This building has a U-shaped plan, which curves around a large interior courtyard and replaces the former guesthouse one situated on the site. The three-story structure attaches seamlessly to the existing building, which houses a large, bright swimming pool and the central congress hall. Horizontal dark gray concrete bands stretch across the façade, separating the stories from each other and emphasizing the building lines. Covered terraces on each level lend the exterior a transparency unusual for a hotel room. The guesthouses on the Wolfsberg are characterized by their elegant atmosphere. The openness of the building to the outside, the lake panorama and the green oasis of the interior courtyard, as well as the elegant quality of the interior design all contribute to the visitors' well being.
